

## Curriculum Vita –CV

Dr\ Khalid S. El ttaib

Assistant professor

Birthday 1962 –Benghazi

**Bsc.** Chemistry - Faculty of Science- **Benghazi university** 1985/ 86.

**Msc.** Inorganic Chemistry - Faculty of Science- **Benghazi university** 1993.

**PhD. Green Chemistry – Electrochemistry** - Metal plating for finishing and corrosion resistance.(2011) – **University of Leicester** –United Kingdome.

- 9- A New Type of Strong Metal - Support Interaction Caused by Antimony Species .Benhmid, K. El ttaib, K. Edbey, V. N. Kalevaru and B. Lücke( in press)

في سنة 1987 بدأت العمل قطاع النفط لدى شركة بارويد الليبية لهندسة سوائل الحفر

ولقد تقلدت الوظائف التالية

مدير ادارة التصنيع ..

مدير ادارة المواد .

المستشار الصناعي .

المفوض العام .

رئيس اللجنة العليا للجرد السنوي .

الإشراف على إنشاء مصنع تحبيب مادة PVC

كانت مسيرتي طوال 19 سنة في الشركة مفيدة وأثرت حياتي المهنية من حيث الخبرة و الإدارة و فتحت لي الآفاق في كيفية التعامل مع مشاكل العمل و إيجاد الحلول المناسبة لها بالإضافة إلى مواصلة العمل من أجل الأفضل و دائما هناك طموح و حوافز يجب استغلالها و أن لا نقف و لابد من الاستمرار في العمل

UNIVERSITY OF  
LEICESTER

#### Research Interests

The main research interests of the group are firmly based around green chemistry with particular emphasis on electrochemical processes. It is active in developing novel solvent systems with industrial applications such as metal deposition and dissolution. It collaborates strongly with industry and much of the work to date has been in the development of novel processes using ionic liquids.

#### Room Temperature Ionic Liquids

#### Ionic Liquid Demonstrator

We have recently developed a range of ionic compounds, which are fluid at room temperature. These ionic liquids are based on choline chloride (vitamin B4) which is produced on the Mtonne p.a. scale and hence these ionic liquids can be applied to large scale processes for the first time. A joint venture involving the University and Whyte Chemicals Ltd. was started in 1999. This partnership allows fundamental and applied research to be carried out while providing the production, marketing and licensing capability of Britain's largest privately owned chemical company. This joint venture company Scionix Ltd. initially put in place at the University, a research group of 3 post-doctoral fellows who carried out the initial investigations to ensure that the intellectual property was developed and protected. The company now holds four worldwide patents that cover over a million ionic liquids and it has made 200kg batches of ten ionic liquids that it is selling internationally. This makes it one of the world's largest manufacturer of ionic liquids

# GLOBAL JOURNAL

OF MEDICAL RESEARCH, USA

To,  
Dr. K. Elttaib,  
Site is undergoing maintenance,  
Libya.

Dear Dr. K. Elttaib,

I came across your paper "Gravimetric Studies of Ni Electrodeposition with Additives from Deep Eutectic Solvents Using Electrochemical Quartz Crystal Microbalance Eqcm" and felt that your work is distinctive for this research domain. This research may indeed prove to be significant to fellow researchers and scientists working in the same discipline.

Taking note of your research interests which matches with our journal domain, may I know more about your current research work? Like we can also develop a network of eminent researcher of your stream worldwide.

As your research work comes under the scope of our journals, I cordially invite you to send your future research articles/papers for publication to Global Journal of Medical Research, DOI: 10.17406/GJMRA. It is an international, refereed, peer-reviewed, indexed and print journal. We are publishing various journals covering most of the disciplines of computer science, engineering, medical and management matters, natural science and human science since more than a decade for thousands of universities and authors from 153 countries.

You might already know that Global Journals Incorporated/Pvt. Ltd. is USA- and UK-based, and internationally established ISO certified group. Journal's homepages are at <https://globaljournals.org/journals/medical-research/c-microbiology-pathology> and <https://medicalresearchjournal.org>

GJMR itself comprises of several specialty journals like neurology, pharma, **microbiology**, radiology, gynecology, diseases, veterinary, orthopedic, surgery, dentist, nutrition, Interdisciplinary etc. I await your favorable response at the earliest to book review slot in upcoming issue of 15th of the coming month.

Regards,

Dr. Michael R.  
Rudnick

Re: 🌸 With Reference to Gravimetric Studies of NiElectrodeposition with Additives from Deep Eutectic Solvents Using Electrochemical Quartz Crystal Microbalance Eqcm

 Dr. Bingyun Li, GJMR <chiefauthor@medicalresearchjournal.org>  
5/3/2020 6:50 PM

To: khalid.elttaib@uob.edu.ly

Dear Dr. Elttaib,

Happy beautiful Sunday to you.

I hope you are well and taking precautions in this global pandemic.

I thank you for your kind reply and would like to invite you to contribute your valuable forthcoming, unpublished research paper. We have two open slots available for you:

- Preferably send the manuscript before 15th June 2020 for the upcoming issue.
- Alternatively, for the following issue, the deadline is 16th August 2020.

Let me know if you are comfortable with these slots.

The peer review process is expected to be completed within one or two weeks of manuscript submission. Being an open access journal, our circulation and readership are among the highest, which in turn increases the citation and h-index.

As you are an invited author, our executives will format and typeset your paper for free and with priority, and you can submit your research work using any standard format. I recommend that you visit <https://globaljournals.org/journals/medical-research>

Further, you may view a journal's specification document at [https://globaljournals.org/GJMR\\_2017.pdf](https://globaljournals.org/GJMR_2017.pdf), which includes all journal metrics. Thank you. We await your favorable response at the earliest.

With warm regards,

**Dr. Mihaly Mezei**  
Asst. Editor, GJMR, Global Journals Organisation
